**Summary:** I am a current graduate student at the New School for Social Research currently wishing to obtain a position in fields relating to psychotherapy and clinical psychology. Regardless of this ambition, I am particularly interested in promoting proper healthcare management and support in marginalized communities. I tend to use technology as a tool to gain empathy and understanding from members of my generation.

## Work Experience:

ParkwayHealth Shanghai

May 2017- August 2017

Psychology Intern:

Gained imperative knowledge of the clinical psychiatry, including prognosis and diagnosis according to DSM 5 and ICD 10. Gained relative familiarity with drug classes and pharmacology of psychiatric drugs, as well, as therapeutic conduct and language through practice.

Anointed Family Medicine LLC.

December 2016 – Present

Webmaster/Part Time IT-Assistant:

Personally developed the website and maintained office technologies through shifts in management.

May 2011- August 2015

Secretary/Database Assistant: Responsibilities include receptionist task, such as filing paperwork, booking and confirming patient appointments. I was also in charge of a project where I had to convert physical copies of patient's medical records onto an online platform accessible by thousands of doctors. The database now holds thousands of patient medical records, of which, I personally transcribed.

NYU Shanghai Library

August 2013- May 2017

Senior Student Supervisor: Responsibilities include circulation desk training, assisting managing book traffic for the university, shelving and cataloguing books, graphic design and publicity for library events.

Chinese Restaurant Database Project

September 2016- May 2017
